-- As Reported by Exporters

Outstanding export sales as reported by private exporters and compiled with other data in this release give a snapshot view of the current contracting scene. At any given time in the course of a marketing year outstanding sales do not bear a consistent relationship to eventual export shipments. A meaningful export projection is not obtainable by the simple device of adding outstanding sales to exports to date. The latter data, alone, may provide a more reliable measure of current export activity than may be derived from a year-to-year comparison of outstanding sales.

EXPORT SALES REPORT

Comments on release of December 2, 1976, (based on reports from exporters for the week ending November 21, unless otherwise noted):

Wheat: Sales activity continued slow, indicative of the noncompetitiveness of U.S. wheat prices. Exports were again very slow. Major buyers included Iran, Ecuador, Japan, and Venezuela. Soft Red Winter sales to East Germany totaling 60,000 metric tons (MT) and Hard Red Winter sales of 27,000 MT to Peru were cancelled.

Corn: Total sales rose by nearly 1.5 million MT, the second heaviest week so far this marketing year (MY). Over 500,000 MT of the increase was reported to unknown destinations. Japan was a major buyer with 258,100 MT. A number of European countries also made substantial purchases. Destination changes totaled 317,000 MT, reflecting continued contract adjustments by exporters. Total sales to the USSR rose by 10,800 MT reflecting both switches in destinations and a new sale of 7,600 MT. Export clearances remained large for the fifth consecutive week with nearly 1.3 million metric tons lifted.

Grain Sorghum: Sales activity fell, totaling less than a third of the preceding week. Japan repeated as the major customer with around 50,000 MT of new sales and a switch out of unknown destinations of 38,100 MT. Sales to Poland rose by 30,500 MT. The export pace declined from the preceding week but was still the second heaviest for the MY.

Barley: Sales activity picked up with Iran the major customer. Total sales for the MY are within 1 percent of the official USDA export projection.

Rice: Sales activity was the heaviest so far this MY. Iran's purchase of over 90,000 MT of long grain and an initial purchase of 7,500 MT of medium or short grain were the highlights. Total Iranian purchases of 223,600 MT are more than a third above their purchases during the 1975/76 MY but still well short of the 1974/75 MY level. Indonesia wrapped up the current buying program with the purchase of 58,000 MT of long grain bringing their total for the MY to 353,200 MT.

Cotton: Sales activity improved to a level not reached since the end of August with Taiwan, Korea, Spain, Philippines, and Bangladesh the major buyers. One week short of being one-third through the marketing year, sales already total 3.5 million RB or 85 percent of the export projection.

Soybean Cake and Meal: Total sales rose by 105,400 MT due primarily to increases to the EC and unknown destinations. Weekly exports also remained strong (104,500 MT.)

Soybeans: Sales continued to accelerate, totaling 451,700 MT with major increases in sales to the EC, Japan, and Taiwan. Exports were also heavy to these countries.

Soybean Oil and Oats: Showed no significant activity.
